Insurance Intern
Allstate Insurance Company
05/15/2008

Job Number: 11592
Job Location: Murray, UT
Employment Dates: to
Work Schedule: 
Salary: 

Job Description:
The Allstate Corporation is the nation’s largest publicly held personal lines insurer. A Fortune 100 company, with $156 billion in assets, Allstate sells 13 major lines of insurance, including auto, property, life and commercial. Allstate also offers retirement and investment products and banking services. Allstate is widely known through the "You’re In Good Hands With Allstate®" slogan. Allstate was founded in 1931 and became a publicly traded company in 1993.
The Allstate Technology Team has an exceptional career opportunity for an Intern for our Murray, UT office.
The developer/programmer in this intern position will support the UA (Universal Application), the underlying platform for Interlink, an advanced web-based policy administration system.
The UA is a large-scale software platform providing major core technologies such as application server hosting, SQL generation, automated screen generation, proprietary compiler and interpreter, automated testing tools and an advanced AJAX client.
Come find out what it’s like to work on a large-scale software system with near 100% uptime.

Qualifications:
Student pursuing a Bachelor's Degree in computer science who have completed their freshman year, have been formally admitted into the university's CS program and have successfully completed 1 year within that program. Understanding of Object Oriented design.
